## ON EASTER MORNING.

The Easter season has come to an end, and this is Easter Sunday. The restrictions imposed by the church are now a thing of the past, and the faithful are at liberty to attend ball, party and dance, or any other pleasurable amusement allowed by their respective churches.

Today is really the beginning of spring, and the end of winter. The churches will solemnize the advent of the season of flowers and sunshine by appropriate services, the ladies will celebrate its advent by blossoming out in new costumes and dainty bonnets, and the boys all over the land will have a holiday.

For the past two or three days mothers and sisters have been assiduously laboring over the cooking stove, with cans of colors, engaged in the task of coloring the eggs which many children will be led to believe were laid by a rabbit. It is one of the delightful old superstitions of children, and as it does no harm, it should be kept up as long as possible.

You ought by all means to go to church today. In our news columns will be found a complete list of services and where they will be held. The sermons will be as usual brighter and more interesting, for the pastor always prepares more carefully his Easter sermon; the congregations will be larger and every one will be infected with the spirit of the season.

And there are the Easter bunnies to engage our attention; wonderful things of ribbons and wire and bows, with sweetest faces underneath. Yes, Easter is a religious day with the churches and no one should miss the services.

## DR. DEWEY'S IMPRESSIONS.

Dr. Chauncey M. Dewey gained fourteen pounds during his visit to the South, and delivered half as many speeches. Because Chauncey always likes the pleasant side of everything, and to speak pleasantly about what he sees, is no reason why we should not be delighted with his impressions. The first impressions of a man are always the most valuable, and by his own confession, these are the doctor's. He pays a compliment to the civility and the climate of the country, he admires the Old South with its courtly manners and its picturesque, tumble-down mansions, but he is a man of affairs as well as a poet and after-dinner speaker. He can strike the nail on the head as well as he can tell a good story, and that is saying a great deal. And he struck the nail on the head with a precision when he said to one of the bright young men of the Washington Post:

"The New South has a different spirit from the Old, it believes in mills and mines and corner lots."

Right you are, Chauncey, go up head. We do believe in such material things, and we have very good reason to. "Mills and mines and corner lots" have been our salvation, and it is by mills and mines and corner lots that we hope to become the most prosperous section of these United States. And we believe farther than that, Chauncey—we believe that no one will be gladder of it than will you.

## PERHAPS ANOTHER LURAY.

Mr. A. J. Banks writes to the editor of the Times that the cave discovered on Thursday near the Alleghany Institute was found by men in his employ instead of the city force as was at first reported. He says further that it is his impression that if it is explored, it will prove to be an extensive cavern. It would not be a bad idea to organize an exploring party and go down in the big black mouth of the mysterious cavern. For all we know to the contrary the city may be built on some great, far-reaching cavern that rivals Luray or Mammoth. Who will volunteer to go down in the bowels of the cave?

## THE COMING ELECTION.

The executive committee of the Democratic party will meet tomorrow night for the purpose of deciding whether or not to hold a primary for the election of candidates for the city offices. It is to be hoped that the matter will be decided definitely so that the public mind will be at rest. If it is to be a free fight—all right, but the voters want to know. They await the decision of the party managers and have enough confidence in them to abide by it.

## MEN YOU HEAR OF.

Dr. Jocelyn, the great violinist, has given an annual series of concerts in London for the past thirty years.

Chauncey Dewey defines the grip as "a disease which makes a man want to run when he sees a good sized mouse—if he could only run."

George Francis Train lectured at Tacoma just before he started around the world and the receipts were \$8,410. Gen. Sprague paid \$325 for the choice of boxes.

Gen. Sherman is an enthusiastic spectator of theatrical performances. He has the entrance to every theatre in New York City. He likes a seat well down in front.

Thomas Harrison, "the boy preacher," is a short, slender little man with a smooth face and round shoulders. In moments of confidence "the boy" acknowledges to 30 years.

The Duke of Bedford has done a great deal for the cause of cremation in England. His contributions to the fund of the Cremation Society of England last year amounted to \$20,000.

Bismarck is said to have a wonderful capacity for tobacco. He has been called a "letter-ratcher," or "chain-smoker," that is, a smoker who unites dinner to breakfast with an endless chain of cigars, lighting a fresh one as soon as the one before it has burned to a stump.

There was a peculiar scene at the Auditorium, in Chicago. Signor Tamagno's voice suddenly left him during the first act of "Otello," and the manager was preparing to give the people their money back when Signor Tamagno said he thought he could proceed, and before the end of the opera was singing as well as ever.

Gen. O. O. Howard, in a recent address at which he had among his hearers Gen. Sherman, Sherman and Sickles, spoke of his last interview with Gen. Grant. "Taking his hand in mine as I said good-by," said the speaker, "I asked the general if there was not something I could do for him. 'Nothing, Howard,' was the reply, 'only pray for me.'"

A picturesque character who recently died in Washington county, Ga., was noted for trading jackknives. On the handle of every knife he ever owned he made a little private mark, by which he could recognize it if it ever came into his hands again.

## GRAHAM TAZEWELL COUNTY VA.

The Graham Land and Improvement company will offer for sale on

Thursday, April 10th at 10 o'clock, at the office of the company in Graham, town lots, as shown on plan, now ready for distribution.

TERMS OF SALE.—One-third cash, one-third in one year, one-third in two years, with six per cent interest per annum on the deferred payments.

Applications for lots at the company's prices will be received up to noon on Tuesday, April 8th, 1890. Parties making application by letter will be careful to designate the section and the number of the lot or lots desired.

Lots for which more than one application shall be received will be sold to the highest bidder at Public Auction on Thursday, April 10th, at 10 o'clock, at the office of the company in Graham.

After the public sale of lots above mentioned, the balance of the lots remaining unsold will be offered to the public at the prices fixed by the company, which range from \$125 to \$500 each according to location.

The Graham Land and Improvement company has purchased about 900 acres of land, including the old town of Graham, at the junction of the Clinch Valley and Ohio Extension of the Norfolk and Western railroad in Tazewell county, Virginia, and has improved the property by laying it out in streets and lots.

The land is so situated, being at the junction of two important branches of the Norfolk and Western railroad, with the Bluestone river running through it, and in close proximity to the Pocahontas coal field, and the iron ore deposits of the Clinch Valley, that it is believed it will within a short period become an important iron manufacturing centre, as well as a distributing point for the entire coal field.

The Clinch Valley and the Ohio Extension of the Norfolk and Western railroad runs through a section of country heavily covered with poplar, white and chestnut oak timber, and it is believed that Graham at the junction of these two branches is a most desirable location for the establishment of saw mills, tanneries, pulp mills, and other wood-working establishments.

The following desirable industries have already been secured:  
The Graham Furnace company, with a capital of \$250,000, have under construction an iron furnace, dimensions, 16x70 feet, with a capacity of about 100 tons per day, and expect to be in blast by November first.

The Virginia Lumber company, with a capital of \$50,000, are erecting their buildings and will be in operation by the first of May.

Arrangements are also being made with parties who propose building at once a large general supply store and warehouse, buildings to cost about \$10,000, and having a working capital of not less than \$50,000.

A company with a capital of \$20,000 is also formed for the manufacture of ice, and expect to be in operation in the course of a few months.

The Graham Land and Improvement company have plans perfected for a fine hotel, which they hope to have ready for occupation by September first. The hotel will be heated by steam and lighted by electricity, and it is the aim of the company to make it one of the most attractive hotels in Virginia.

Parties desiring to purchase lots will be furnished with maps and price list and any desired information by address—J. K. Wright, Jr., Agent, Graham Virginia, or E. J. Collins, Secretary, Bullitt Building, Philadelphia, Pennsylvania.
